

MOVING THE AGILITY AGENDA FORWARD

Colorado Succeeds successfully advanced an agility agenda in the 2019 legislative session to support agile learners, agile systems, and agile educators. Our top 5 priorities accomplished the following:

1 Changed outdated funding practices that links the amount of money a school receives to the amount of time a student spends inside the classroom, allowing more students to participate in out-of-school learning opportunities.

2 Secured \$5 million for financial incentives to school districts that offer work-based learning opportunities.

3 Created flexibility for school districts to experiment with local accountability and build more agile systems. Districts can now test new, more innovative workforce and college readiness measures.

4 Ensured all high school students will now have the opportunity to earn college credit in high school through greater access to concurrent enrollment.

5 Expanded the number of educators who can teach postsecondary-level courses in high school by increasing funding and loan forgiveness for educators earning master's degrees in key content areas.

BY THE NUMBERS

12/13

bills we supported
passed

2/2

bills we opposed were
defeated

9,000

students completed
industry credentials and
courses over 2 years

\$200 million

investment secured for
Full-Day Kindergarten

\$39 million

protected funding for
targeted literacy services

\$14 million

in new money steered
towards our shared priorities
