

About Colorado Succeeds

Colorado Succeeds is a nonpartisan network of business leaders representing companies of different sizes, sectors, and locations from across Colorado who have come together to ensure that all Colorado students are educated to their greatest potential and all Colorado businesses have the homegrown talent they need to thrive. Together, we are leading the way in the agile education movement, ensuring that today's students develop real world skills, have access to growth and development opportunities, and learn how to learn.

Colorado Succeeds believes education systems should respond to the diverse needs of learners as well as the dynamic skills changes occurring in the world around us. By focusing on outcomes and not inputs, we can equip all learners with the skills they will need to solve problems that have yet to be identified. Colorado Succeeds' members are business and community leaders who have united to change outcomes for kids, support in bringing more relevance to schools, and shape the future of Colorado's workforce. Our members have committed their networks and resources to help deliver on this mission through our strategic priorities: policy, practice, and philanthropy.

Vision: *All of Colorado's children are educated to their greatest potential, and all of Colorado's businesses have the talented and innovative homegrown workforce they need to thrive.*

Mission: *To apply our business expertise, influence, and capital to improve Colorado's schools.*

Equity Rationale: *Colorado Succeeds is committed to Justice, Equity, Diversity, and Inclusion as its core motivator, strategy, and value. Systemic inequities in education have for too long determined the type and quality of educational opportunities students can access and experience, and the Colorado Paradox is still very much a reality. While more than half of the state's residents have a postsecondary degree, only 22% graduated from Colorado's K-12 public schools. According to the Colorado Talent Pipeline Report, 97% of CO's top in-demand jobs require some level of formal postsecondary education or training, and only about 1 in 5 high school graduates obtain that type of credential.*

Through strategies in policy, practice, and philanthropy that center students and families who face systemic inequities, Colorado Succeeds works to remove barriers to ensure equity in accessing experiences, opportunities, and resources they need to reach their greatest potential. Colorado Succeeds is committed to engaging the perspectives of diverse communities to learn, understand, and form the basis of our future actions. Succeeds is committed to finding ways to ensure these education stakeholders and their ideas are at the table, co-creating, supporting, and leading efforts that are best for Colorado's students and families.

Colorado Succeeds holds itself to continuous improvement, including advancing equitable policy agendas, more visibly and consistently sharing its commitment to equity, centering equity in decision-making and strategy development, and clearly defining and demonstrating progress towards equity outcomes.

Core Values:

- **Collaborative** – *We build trusting relationships with our colleagues, investors, partners, and community members by listening, learning, and supporting one another. Together, we are stronger and can contribute more.*
- **Leadership** – *We take responsibility for finding the potential in all people, processes, and systems, and we have the courage to develop that potential, even when it may be difficult or uncomfortable.*
- **Entrepreneurial** – *We are motivated to innovate; create and test new solutions; and challenge the status quo in pursuit of transformational results. We work to see around the corner and take the initiative to act before others do. We can act and react as necessary, even when limited information is available.*

- **Accountable** – We accept responsibility for our actions, words, attitudes, and impact. We own our commitments, mistakes, and continuous improvement.
- **Relentless** – We are determined to make the most of every moment. We have a bias towards action and a sense of urgency to achieve our goals. We are tenacious, tireless, and never discouraged in the pursuit of impact for all learners.
